A five day Intensive Study Course culminating in Shabbat Dinner for participants and spouses. In the mornings we'll be doing studies in Genesis and in the afternoons, studies in Galatians. We'll be introducing different commentaries and insights back to the times of the earliest documents and we'll be doing close readings of the texts and trying to push past some of the common assumptions that are held. It promises to be an exciting and challenging time of learning from the Scriptures together.

We do hope you can join us!
